

CITY INTELLIGENCE.

THE GREAT BOND ROBBERY.—ABOUT ONE-HALF OF THE GREAT BOND ROBBERY.—SINCE THE GREAT BOND ROBBERY AT THE BENEDICTINE MONASTERY, TWENTY AND CHESTNUT STREETS, THE DETECTIVES HAVE BEEN HARD AT WORK endeavoring to secure not only the arrest but the conviction of the perpetrators. Several parties have been in custody, but have been discharged owing to the want of such testimony as would warrant their being held for trial. Up to this time no satisfactory clue has been obtained. Yesterday the officers of the institution received a package containing about \$200,000 of the bonds and mortgage principally canal, railroad, and city securities. On a sprinkling of United States bonds, on the 21st of this morning, we ascertained that the detectives in charge of the matter know none of the particulars connected with the return of the above money. The officers of the Fund are decidedly in favor of the money, which may be owing to the fact that they will be satisfied with the recovery of the money. The case should be thoroughly investigated by the police authorities, and guilty parties brought into court.

standing all the talk about Spanish pride and the impossibility of effecting a bargain for the sale of Cuba, the Provisional Government in old Spain are only waiting a good excuse and opportunity to sell out the pen to Brothers Jonathan. Money, say some of the diplomats assembled in Washington, is what Spain now needs above everything. She must raise money somehow or other, and one of the easiest modes, they believe, is by the sale of Cuba.

OBITUARY. Henry Augustus Wise. Private intelligence from Europe reports the death of this well-known naval officer and author, at Naples, on the 1st inst. Captain Wise was in the fiftieth year of his age, having been born in Brooklyn on the 12th of May, 1819. On the 8th of February, 1834, he entered the naval service as a midshipman, serving on the sloops Erie and Cyane, on the coast of Florida, during the Seminole war. On the 10th of July, 1836, he received his warrant as passed midshipman, and in October, 1840, was promoted to the rank of master. As such he deceased served in the Pacific during the war with Mexico. During February and March, 1847, he was appointed a commander in the navy, and assigned to duty as Assistant Chief of the Ordnance Bureau at Washington. This position he held during the Rebellion with credit and success. In December, 1866, he was commissioned a captain, and last year he was granted leave of absence, with permission to visit Europe. For a long period Captain Wise did duty on the Coast Survey, and his reports are generally regarded as about the most reliable accounts of the points surveyed by him that are in our possession. As an author he is best known by his works are "Los Gringos" (1849), being a series of sketches of travel through Mexico, California, Peru, Chili, and Polynesia; "Tales for the Marines" (1855); "Scamparis" (1857); and "Captain Brand, of the Schooner Centipede" (1860). Captain Wise possessed a large circle of friends and acquaintances, to whom he was endeared by his many sterling qualities, and who will deeply regret his death. He married a daughter of Hon. Levi Woodbury.

FROM THE CAPITAL. The Belligerent Senators—No Settlement Yet—Affairs in the Land Office. Advice from Europe—Great Britain and the Cuban Question—A Debate in the Spanish Cortes.

FROM WASHINGTON. Dispatch to the Associated Press. Washington, April 23.—A report prevailed to-day that Abbott and Sprague had left this city to settle their difficulty, but this is untrue. Both gentlemen are still here, and no correspondence whatever has passed between them. The Land Office. The Commissioner of the General Land Office has approved the application of the city of Nevada, Cal., for the purchase of the lands within its boundaries. This is the first case under the new law giving the right to towns to purchase mineral lands.

FROM ENGLAND. The London Press on the Cuban Question—Fruitful Action of the French Government—Success of the Spanish Loan. London, April 23.—The London Post of to-day—a conservative Whig organ—has an elaborate editorial article on the Cuban question, in which it mentions that it is asserted that President Grant has a long eye upon Cuba and would not be unwilling to distract the attention of the people of the United States from watching the course of internal affairs by a war with some foreign power. A conflict with Spain cannot leave any doubt respecting the issue, unless England and France should interfere. A blow dealt at Cuba would be tantamount to a blow dealt towards the whole of the West Indies, and the acquisition of Cuba might be followed by that of Jamaica and Martinique. The same paper quotes the recent acquisitions of territory by the United States as a proof that it wants to acquire by piecemeal all the possessions held by European powers in that latitude, and would naturally commence with Cuba, because it belongs to the weakest of the powers having settlements in the West Indies. France and England will doubtless determine whether these designs against Cuba will be tolerated, or aid Spain in retaining her colony.

The French press has agitated the question much in the same tenor, and special meetings of the French Cabinet were held on Tuesday and Wednesday, which resulted in a special envoy being sent last night to London with dispatches referring to the present complication of events. The Spanish loan of \$8,000,000 was launched here yesterday through the medium of J. S. Morgan & Co., and is meeting with good success.

FROM SPAIN. Debate in the Spanish Cortes on the New Constitution. Madrid, April 23.—The debate in the Cortes on the new Constitution was continued yesterday, and the article relating to newspapers, etc., was finally disposed of. An amendment establishing a moderate censorship of the press was rejected, and the original provision guaranteeing the liberty of the press, liberty of meeting and association, and the right of petition, was carried by a large majority. It is expected that the duties on coal and cotton will be abolished by the Government.

SCHENCK'S

FULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS WILL CURE CONSUMPTION, LIVER COMPLAINT, AND DYSPEPSIA.

If taken according to the directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure Consumption. To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his UNRIVALLED SUCCESS.

In the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest, and the lungs begin to heal. To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and food will make good blood.

SCHENCK'S MANDRAKE PILLS. Act upon the liver, removing all obstructions; relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care) that will unlock the gall bladder and start the secretion of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption. SCHENCK'S SEAWEED TONIC. Is a gentle stimulant and alterative, and the alkali in the seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring the stomach.

Why physicians do not cure Consumption, they try to do too much; they give medicines to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they deplete the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. Dr. SCHENCK, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs are in some way diseased—either tubercles, abscesses, bronchial irritation, pleural adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. SCHENCK'S three medicines, which will bring up a tone to the stomach, the patient will want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

WHEN THERE IS NO LUNG DISEASE, And only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious cases, as they are PERFECTLY HARMLESS.

Dr. SCHENCK, who has enjoyed uninterrupted health, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, PHILADELPHIA, EVERY SATURDAY.
